

India Trade Watch — FY2014-15

The starting line — and the first pricing instrument

Policy launches by quarter

QTR	LAUNCHES (PRID-CITED; MAJORS IN BOLD)
Q2	Make in India launched (25 Sep 2014) — umbrella facilitation, no fiscal instrument of its own (traced: PRID 2058603)
Q3	Administered ethanol pricing notified for OMC procurement — the EBP loop's first instrument (traced: PRID 1536696 states 'since 2014')
Q4	UJALA LED programme launched (5 Jan 2015) — zero-subsidy bulk procurement (PRID 2090639) · Sagarmala approved (Mar 2015) — port-led development (PRID 2251071)

Verified anchors for the year

ANCHOR	VALUE	SOURCE
Mobile handset factories	2 units	PRID 2099656 (baseline stated)
Solar installed	2.82 GW	PRID 2100603 (baseline)
Operational airports	74	PRID 2285671 (baseline)
LED retail price	~Rs 450–500	PRID 2090639 (baseline)
Ethanol blending	1.53% (ESY 2013-14)	PRID 1736751

Linkage: the year's instruments are all demand-side (procurement price, bulk buying, port-led investment) — the design family the matured cohort later proves out. Trade/forex anchors here are baselines against which every later document measures.

Retrospective series generated from data/pib_index.sqlite (122,141 releases, 2017-2026; pre-2017 launches traced through later releases — the modern portal's day-wise record begins in 2017), the classified Cabinet-launch datasets, and session-verified trade/FDI/forex anchors. Years the register cannot reach carry fewer anchors by design. Full methodology: the quarterly-refresh blueprint on herrickshaw.github.io/india-trade-sector-policy-recommendations.
